iv. Documents submitted for EC transfer:

- i. Form No.7 for transfer of Environmental Clearance.

3. As per the para 11 of EIA notification 2006, a prior environmental clearance granted for a specific project or activity to an applicant may be transferred during its validity to another legal person entitled to undertake the project or activity on application by the transferor, or by the transferee with a written "no objection" by the transferor to and by the regulatory authority concerned, on the same terms and conditions under which the prior environmental clearance was initially granted, and for the same validity period. 4. It is inferred from above that all the project facilities envisaged in the Environment Clearance dated 22/09/2008 have not been implemented within EC validity period which expired on 21/09/2018 (post extension of validity of EC) as detailed in the table given at paragraph 2(ii) above.

plant (Clinker = 3000 TPD and Cement = 4200 TPD). Further, transfer request of the proponent for remaining unimplemented facilities i.e., phase II of the cement plant (Clinker = 5500 TPD and Cement = 7700 TPD) and 15 MW Captive Power Plant is hereby rejected and project proponent shall apply for fresh Environment Clearance under the provisions of EIA Notification, 2006.
